Noida, May 11, 2020: Inox Wind, India's leading wind energy solutions provider, has signed definitive agreements with Continuum Power Trading (TN) Private Limited, part of Continuum Wind Energy group, to supply, erect and commission 250 MW of wind power projects (in two phases of 126 MW and 124 MW) comprising of a mix of 2 MW (113 metre rotor diameter turbine combined with 92 metre hub height) and 3 MW (145 metre rotor diameter turbine combined with 120 metre hub height) turbines. Post receipt of certain advances, Inox Wind has started execution of the first phase of the project comprising of 126 MW which is scheduled to be commissioned by Q3 of FY 2021 at Dayapar, District Bhuj in the State of Gujarat on a turnkey basis. As part of the turnkey order, Inox Wind will provide Continuum Power with end to end solutions from development and construction to commissioning and providing long term operations and maintenance services. Common Infrastructure such as 220 KV Pooling Substation at Dayapar, 220 KV Bay at PGCIL Nirona End, 220 KV Transmission Line for 72 km is already ready and the project will be executed on a plug and play basis.

ABOUT INOX WIND:

Inox Wind is India's leading wind energy solutions provider servicing IPPs, Utilities, PSUs & Corporate investors. Inox Wind is a fully integrated player in the wind energy market with three state-of-the-art manufacturing Plants in Gujarat, Himachal Pradesh and Madhya Pradesh. The Plant near Ahmedabad (Gujarat) and Barwani (Madhya Pradesh) manufactures Blades & Tubular Towers while Hubs & Nacelles are manufactured at the company's facility at Una (Himachal Pradesh). Inox Wind's manufacturing capacity stands at 1,600 MW per annum.

IWL manufactures key components of WTGs in-house to maintain high quality, most advanced technology, reliability and cost competitiveness. IWL has obtained ISO 9001:2008, ISO 14001:2004, OHSAS 18001 and ISO 3834 certifications for its management systems pertaining to manufacturing, installation, commissioning and O&M of wind turbines. Inox Wind offers complete end to end solutions from concept to commissioning. Besides manufacturing and supply of WTGs, Inox Wind offers services including wind resource assessment, site acquisition, infrastructure development, erection and commissioning, and long term O&M of wind power projects.
